| TENNIS, FASHION, MUSIC

Tennis has been a passion of mine which I have recently been able to rekindle. I like to keep up my exercise and it is a great way to mix focusing on yourself and improving your game (singles) and also your teamwork and to meet new people (doubles). I constantly want to improve and I find myself always trying to think of ways in which I can.

Fashion has also been a great inspiration in my life and I find myself using bits and pieces of it in my design. Many theories of design overlap including some of the ratios in fashion (1:1.68 / 3:5 / etc) are also very useful in website design to create balance and to visually flow well. I am a fan of many different brands with some notable ones being: Kidill, Yohji Yamamoto, Maison Margiela and Undercover.

Music has always been an integral part of my life and I will listen to just about anything. I work best with music playing and can match my rhythm to the music. Some of my favorite artists include: midwxst, JPEGMAFIA, ZillaKami and KSHMR.
